

Welcome to PharmaGateway.net!

In collaboration with Springer and the American Association of Pharmaceutical Scientists (AAPS), **Astute Technology** has developed an association-branded portal product, www.PharmaGateway.net. This portal serves as an entry point and repository for the AAPS official journals and leverages the search and distribution power of SpringerLink but with a refined focus on *Pharmaceutical Research*, *The AAPS Journal*, and *AAPS PharmSciTech*.

www.PharmaGateway.net has been created for the pharmaceutical sciences community to allow easy access to content that Springer and AAPS jointly publish. It allows visitors to easily search for content across the three AAPS official journals.

AAPS members can access all three journals directly from www.PharmaGateway.net if they are logged into AAPSPharmaceutica.com.

www.PharmaGateway.net features quick links to:

- Full-text articles in the journals
- RSS feeds for all the journals' content
- new issue alerts
- the AAPS calendar of events
- order reprints

You can even find out how to submit your latest research!

Visit www.PharmaGateway.net today and see what's new and exciting with the official AAPS journals!
